**Energy policy without much capability**

Afrika is leaning on sharing data on which decisions could be taken - that is the holding back the continent. We are poor at implementation.

---

**Giving youth hunger for education a second chance**

**ANSWERS**

With unemployment at 35.2%, it is important they be given a chance at getting gainful employment by improving their education even after failing in matric at the first attempt.

**KEY POINTS**

- It’s a real shortage of project developers. The number of international project developers has been reduced, as leading international energy companies have pulled back because of activities over the past decade.

- There are many international energy companies that have pulled back because of activities over the past decade.
