The World Energy Week

A. About the World Energy Week

WORLD ENERGY COUNCIL
WORLD ENERGY WEEK
Lisbon, 16-19 October 2017

World Energy Week

About the World Energy Council

- The **World Energy Council** is the principal impartial network of leaders and practitioners promoting an affordable, stable and environmentally sensitive energy system for the greatest benefit of all.
- Formed in 1923, the Council is the UN-accredited global energy body, representing the entire energy spectrum, with more than **3.000 member organisations** located in over **90 countries** and drawn from governments, private and state corporations, academia, NGOs and energy-related stakeholders.
- The World Energy Council informs global, regional and national energy strategies by hosting high-level events, publishing authoritative studies, and working through its extensive member network to facilitate the world's energy policy dialogue.

World Energy Week

About the event

- The **World Energy Week (WEW)** is the regular event of the **World Energy Council** that brings together the World Energy community. Coming from all parts of the world and representing national, regional and global energy systems and sectors, participants take part in internal member meetings and public conferences featuring high-level speakers on the state of the energy system, as well as social events. Private high-level CEO and Ministerial roundtable meetings are hosted alongside these gatherings allowing for interaction and shared insights and side events may also be organised. Its mission is to:
 - Convene energy leaders and practitioners from across the spectrum of the energy system to identify and set the priorities of the world energy community;
 - Provide a stage for the Council's content and insights, and to share perspectives on new developments and experiences across the global energy system and how each country can address its energy trilemma;
 - Catalyse thought leadership;
 - Assess strategic priorities for the Council across content, network and platforms, allowing time for regional and global communities to come together.

World Energy Week

Attendance

- The event gathers more than **350 professionals** across the energy spectrum, including Member Committees' leaders, Ministers and government officials, private sector energy leaders, energy practitioners and experts, young energy professionals, academia and civil society.

World Energy Week

Sectors

a multi-platform event

- The World Energy Week covers all sectors of activity, offering great business, sponsorship and partnership opportunities with value for all stakeholders.

ENERGY SECTOR

- Oil and gas
- Resources
- Renewables
- Power generation
- Hydropower
- E-mobility
- Nuclear
- Energy storage
- Infrastructure
- Grid technology
- Waste to energy
- Technology & Innovation
- Finance
- Consultancy and other support services
- Others

World Energy Week

Location

- The host Member Committee support is fundamental to the success of a World Energy Week, and bringing the event to different regions around the world ensures the global and regional relevance of the Council's agenda. We welcome bids from all Member Committees regardless of their region or energy system, provided they can meet the selection criteria, ensure a positive participant experience, and are committed to the mission of the World Energy Council.
- **Previous** World Energy Week (former EA) took place at the following locations:
 - 2014: Cartagena, Colombia 2015: Addis Ababa, Ethiopia
 - 2016: Istanbul, Turkey 2017: Lisbon, Portugal
 - 2018: Milan, Italy
- **Future** World Energy Week will take place at the following location:
 - 2019: Abu Dhabi, United Arab Emirates (UAE) 2020: Beirut, Lebanon

World Energy Week

Did you know?

- The Council convened its **2012 Executive Assembly** in Monaco on 8th November and at the Plenary HSH Prince Albert II of Monaco gave the opening address.

HSH Prince Albert II of Monaco addresses the NMC members

“(...) All across the world, wherever my travels take me, especially for my environmental action, I know how difficult it is to change the bases of our lifestyle, particularly when the economic crisis weakens each of us and when the future appears grim. That is why your role is to propose new solutions and should be at the heart of any approach concerning our relationship with energy. As such, I appreciated that your discussions focused on the correlation between the three essential requirements: security, accessibility, and above all respect for the environment. This obligation does not preclude, quite on the contrary, our duty to pursue the demanding innovative and inventive work by which you are motivated. Because finding energy solutions that are abundant, safe and sustainable is the primary condition for fundamental change (...)”

World Energy Week

Programme

- **The four-day event** combines large **internal plenary** and regional meetings over the first two days that focus on governance, information sharing and developing the World Energy Council network. The second two days comprise a **public programme** including the **Energy Transition Summit** and the **Host Country Energy Conference**. There are also two invitation-only **private events** taking place during these four days – the **World Energy Leaders' Summit**, an event specifically designed for Ministers, CEOs and special guests, and the **Future Energy Leaders' Summit**, tailored to the young energy professionals who embody the World Energy Council's Future Energy Leaders' programme, FEL-100. **Social events** are also held bringing communities together for networking.

World Energy Week

Programme

I. Internal Programme

- **Annual Executive Assembly**
 - Executive Assembly plenary
- **Governance meetings**
 - Programme Committee
 - Studies Committee
 - Communications & Strategy Committee
 - Secretaries Strategy Day
 - Officers' Council
 - Finance Committee
- **Regional meetings**
 - Europe, Asia, Africa, Latin America and Caribbean, North America, and Middle East and Gulf States

II. Public Programme

- Energy Transition Summit
- Host Country Energy Day

III. Private Events

- World Energy Leaders' Summit
- Future Energy Leaders' Summit and Workshops

IV. Social Events

- Welcome Reception
- Joint World Energy Council and Energy Transition Summit Reception
- World Energy Leaders' Summit Dinner
- Other social activities

World Energy Week

Public programme

- **Energy Transition Summit** – The Energy Transition Summit is an exclusive opportunity for the Council's community and energy leaders of the region, together with special guests, to focus on ways to overcome the Energy Trilemma and to secure prosperity. The agenda will build upon insights gained from the World Energy Council's on-going studies, including the World Energy Trilemma, World Energy Issues Monitor and the World Energy Scenarios.
- The Energy Transition Summit is an opportunity for energy leaders of the region to advance in a dialogue between the public and private sectors to design a long-term energy policy under the framework of the Energy Trilemma.

World Energy Week

Private programme

- **World Energy Leaders' Summit** - A high-level, exclusive event, organised by the Council for the global energy leaders' community to facilitate on-going dialogue on critical issues affecting the energy sector. Participation is by invitation only to Ministers, the Council's Patron and Global Partner CEOs, officials and selected high-level guests.

World Energy Week

Private programme

- **Future Energy Leaders' Summit** - Annual meeting for the Council's Community of the Future Energy Leaders - FEL100, a network of young professionals from across the globe who represent the entire energy sector. It serves as a platform for young leaders to learn and explore critical issues on the energy agenda, contribute to the World Energy Council's global energy dialogue, support the development of balanced policy frameworks and help shaping energy solutions for tomorrow.

The World Energy Week

C. Why host the World Energy Week

WORLD ENERGY COUNCIL
WORLD ENERGY WEEK
Lisbon, 16-19 October 2017

World Energy Week

Why host the World Energy Week

- Network development and expansion
- New business and collaboration opportunities for the energy sector
- International exposure
- Promotion of the local scientific network and development of new communities
- Economic benefits for the local destination
- Improve relationships with your national stakeholders and support their development by bringing them into contact with regional and international players
- Support the national energy sector
- Build relationships with national and international policymakers
- Contribute to the world energy community and the missions of sustainable energy for all
- Generate potential revenues
