Trilemma Score

33.8

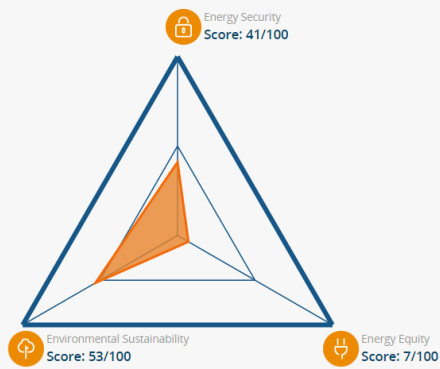

Balance Grade

DDC

DRC ranks 127th in the global index, with stronger performance in Sustainability and sustained improvement in the Security index. Equity is lower due to limited access to energy, but electrification and affordability have improved since the late 2000s. Higher energy storage and improved power grid stability have led to significant progress in Security in recent years. Sustainability can further be improved through energy efficiency. The DRC gets an overall grade of DDC.
