DIGITAL SUMMIT

# WORLD ENERGY LEADERS' SUMMIT

## From Transition to Transformation

London

UNITED KINGDOM

Tallinn  
ESTONIA

### An invitation to our CEO and Ministerial community: World Energy Leaders' Summit Estonia 2021

As the world strives to recover from crisis, the focus on wider collaboration and broader innovation is essential to keep global energy transition on track. Multiple transition pathways are emerging which reflect increasing diversity in regional energy systems. In the shift to digital energy services, value generation is moving closer to the end user and the contours of the new customer-centric energy system are becoming clear.

**What is the true impact of digitalisation on energy and energy transition? How is your organisation responding and adapting to the digital transformation of energy systems?**

Our hosts of the World Energy Leaders' Summit Estonia 2021, **H.E. Taavi Aas**, Minister of Economic Affairs and Infrastructure, **H.E. Andres Sutt**, Minister of Entrepreneurship and Information Technology Republic of Estonia and the Secretary General & CEO of the World Energy Council, **Dr Angela Wilkinson**, warmly invite you to a private and informal dialogue for Ministers and CEOs to engage and exchange ideas with peers on the current state and outlook for digitalised energy systems.

### The experience

In this **live digital edition** of the World Energy Leaders' Summit Estonia 2021, you will take part in an exciting and **interactive discussion**, exploring the state of play and the future contours of digitalisation and customer centric energy. The goal is to involve you in a stimulating exchange of ideas and new strategic thinking to progress successful global energy transition.

With **professional moderators in Tallinn and Senior Adviser to the Council, Arthur Hanna in London** to facilitate discussion, you and your peers will be able to exchange views and conceptualise ideas on how digital is currently impacting energy transition. Which digital transformations will intensify change? What are the major digital transformations taking place outside of energy that will transform energy systems of the future? The engaging discussion will offer an insight into the transformative impacts of digital developments and discoveries that will impact the pace and direction of global energy transition.

### About the World Energy Leaders' Summit

World Energy Leaders' Summits are **private, high-level forums** designed specifically for the World Energy Council's **top CEO and Ministerial community**. These exclusive gatherings aim to spark dialogue on the critical issues affecting energy transition management and provide an interactive, peer-to-peer exchange for sharing best practices, clarifying priorities for action, and realising new opportunities for collaboration.

To guarantee an exceptional quality of dialogue and peer-level exchange, we strictly **limit the number of places** and invitations are non-transferable.

---

In 2021, the World Energy Leaders' Summit will be hosted by the Ministry of Economic Affairs and Communications of Estonia and the World Energy Council, in partnership with the World Energy Council Estonia.

---

 30 JUNE 2021

 12.00 – 14.15 (UTC +1)

## Highlights

- CEO and Ministerial level peer-to-peer exchange on the outlook for digitalised energy systems.
- What digital developments and issues are energy leaders focusing on?
- How is digitalisation in energy impacting design, manufacturing, distribution, maintenance, trading and new energy services?
- What is the next set of innovation turning points in the cyber-energy nexus, and how might these fundamentally re-shape the future of energy?

## How to participate

We kindly ask you to note that whilst participation is complimentary, the Summit is a private, invitation-only forum and, as such, invites are non-transferable. If you have not already done so, we cordially ask you to **confirm your place by contacting the Global Agenda team at the World Energy Council.**

On confirmation of your participation, you will receive details on how to digitally access the Summit and any briefings that will assist you in making the most of the discussion. Up to two senior Ministerial or CEO advisors will be permitted to support participants in room, at the Council's discretion.

Please contact us for further details. If you are interested in attending and have not received an invitation, please contact the Global Agenda team of the World Energy Council.

## Digital requirements / connectivity

The World Energy Leaders' Summit Estonia 2021 will take place via digital platform. We recommend you have reliable internet connectivity and use a computer to access the Summit to ensure a full experience. **Your priority access link will be sent to you on confirmation of your participation.** You (or your advisor) will be invited to a short digital meeting in advance of the Summit to introduce you to the platform and how the discussion will be facilitated (not mandatory).

## Confirmed and previous participants include:

- **HE Juan Carlos Jobet**, Minister (Government of Chile);
- **HE John Peter Amewu**, Minister (Government of Ghana);
- **HE João Galamba**, State Secretary (Government of Portugal);
- **HE Alexander Novak**, Deputy Prime Minister (Russian Federation);
- **HRH Prince Abdulaziz bin Salman Al Saud**, Minister (Kingdom of Saudi Arabia);
- **HE Wasantha Perera**, Secretary, Ministry of Power (Government of Sri Lanka);
- **HE Miriam Dalli**, Minister (Government of Malta);
- **HE Suhail Al Mazrouei**, Minister (Government of United Arab Emirates);
- **Paddy Padmanathan**, President and CEO (ACWA Power);
- **Lorenzo Simonelli**, President and CEO (Baker Hughes);
- **Jon Moore**, CEO (Bloomberg New Energy Finance);
- **Angélica Ruiz Celis**, Director General (BP Mexico);
- **Bob Dudley**, former CEO (BP);
- **Frédéric Bordry**, Former Director (CERN);
- **Richard Lancaster**, CEO (CLP Group);
- **Elliot Mainzer**, President and CEO (California ISO);
- **Leonhard Birnbaum**, CEO (E.ON);
- **Jean-Bernard Lévy**, CEO (EDF);
- **Didier Holleaux**, Executive VP (ENGIE);
- **Serge Colle**, Global Head of Energy (EY);
- **Dong Wook Kim**, Senior VP (Hyundai Motor Group);
- **Carlos Peton**, CEO (Mitsubishi Power Europe);
- **Shri Gurdeep Singh**, Chairman and Managing Director (NTPC Ltd);
- **Jeroen Van Hoof**, Global Leader (PwC);
- **Kirill Komarov**, First Deputy Director General for Corporate Development and International Business (ROSATOM);
- **Jean-Pascal Tricoire**, Chairman and CEO (Schneider Electric);
- **Oliver le Peuch**, CEO (Schlumberger);
- **Kandeh Yumkella**, former CEO (SEforALL);
- **Kim Yin Wong**, Group CEO (Singapore Power);
- **Patrick Pouyanné**, CEO (Total);
- **Shigeru Muraki**, Executive Advisor (Tokyo Gas);
- **Arthur Hanna**, Senior Adviser (World Energy Council);
- **Maria van der Hoeven**, Senior Adviser (World Energy Council);
- **Nobuo Tanaka**, Senior Adviser (World Energy Council).
