## Balancing the 'Energy Trilemma'

## **Energy Security**

The effective management of primary energy supply from domestic and external sources, the reliability of energy infrastructure, and the ability of energy providers to meet current and future demand.

## **Energy Equity**

Accessibility and affordability of energy supply across the population.

## **Environmental Sustainability**

Encompasses the achievement of supply and demand side energy efficiencies and the development of energy supply from renewable and other low-carbon sources.

**ENERGY** 

**EQUITY**
